

Pueblo Community College Dental Hygiene Program

Patient Information Sheet

The Dental Hygiene program operates a modern, 26-chair community clinic. The program welcomes patients from the public, community agencies, and area dental offices. Preventive treatment provided includes a dental hygiene exam, cleaning of teeth, x-rays, fluoride and sealants.

How can I become a patient?

If you wish to become a patient, call **719.549.3286** to request a screening appointment.

What is the screening appointment?

The screening consists of a medical history and brief exam to determine your suitability as a dental hygiene school patient. It requires approximately one hour. There is no charge for the screening.

Will I be accepted as a patient?

Acceptance of patients is determined by the educational needs of the dental hygiene students, your medical history, and your ability to meet the scheduling needs of the students. Unfortunately, we cannot accept all persons who apply.

Who provides treatment?

Your treatment will be provided by the dental hygiene students under the supervision of licensed dentists and dental hygienists.

How much will it cost?

You will be informed at the screening of the cost for your particular case. Fees are low in exchange for the additional time required for your treatment in a school setting.

Basic fees are \$25 for a child aged 6-15 (includes cleaning and fluoride), \$30 for adults, and \$80 for advanced periodontal cases (x-rays are charged separately).

Total payment is required at the first treatment appointment. We accept cash, checks, and credit/debit cards.

How often do I have to be available for appointments?

Most cases require two or more visits of approximately four (4) hours per visit. Student clinic time is limited, so your reliability is important.
