Career Opportunities: Surgical technology is one of the fastest growing professions in the country. At PCC, the Surgical Technology Program prepares you for a career in a variety of settings including hospital surgery departments, obstetric departments, cardiac catheterization labs, ambulatory surgery centers and central processing. A Surgical Technologist is a vital member of the operating room team and requires extensive commitment and special qualities for those who practice in this profession.

Entrance Requirements: This is a limited-entry admission program. Students must complete prerequisite courses within the last 5 years with a “C” or higher to be admitted to the Surgical Technology program. Students who complete the departmental application process will have their qualifications reviewed by the program’s admission committee. Applicants not accepted for a given year who wish to be considered for a subsequent term must reapply.
